TECH STACKS USED

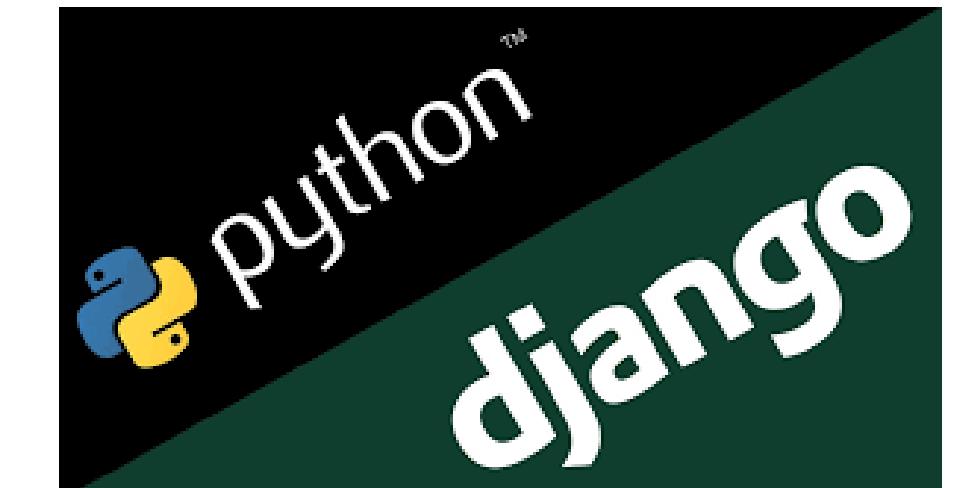

HTML

CSS

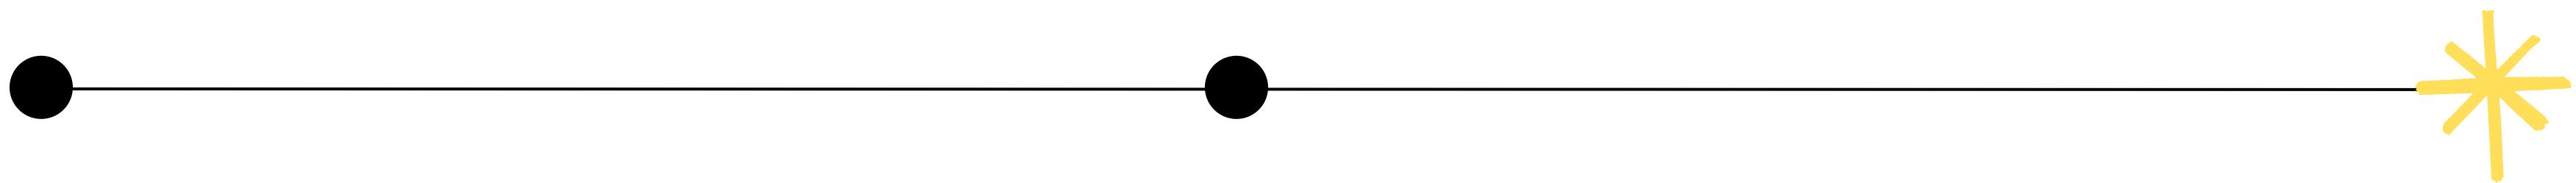

tailwindcss

Timeline

DAY1

Understanding the problem statement and discussing ideas to form the roadmap for the next days.

DAY2

Designed the front end and the user interface.

DAY3

Implementing backend and making improvements in the project.

- The website is to be popularized by making use of various social media networks.
- The past campus ambassadors set a great example for the benefits of enrolling with us.
- The college students would be targeted to spread the good word and benefits of being a campus ambassador.
